

Hi Everyone,

Due to the success and ease of online ticketing sales last few years, we will be using the same system for this year's sales. As in the past, the graduating students will be given first opportunity to purchase tickets for their families beginning at 5:00 p.m. on Tuesday, April 24th. We have several graduating families this year and I will contact them with details.

Tickets will go on sale for the rest of our dance families on Tuesday, April 24th at 7:00 p.m. I will post a link on our website and in the facebook group that will direct you to the site - the link is www.recitalticketing.com/21638/ It will ask which show you wish to purchase tickets for, show a seating chart and have a check out system. There is an interactive Seating map with click to reserve technology which means that two buyers cannot purchase the same seat. There is a time limited checkout. When the timer lapses, the ticket are released back to all other buyers unless the checkout has been completed.

To purchase tickets online, payment can be made by VISA, Mastercard, Discover and American Express. Ticket price remains the same at \$12.00/ticket. Each person who uses a seat, will require a ticket. Preschool children may sit on a lap and will not require a ticket unless they want their own seat. Dancers will not be allowed into the audience. We require them to be in the dressing room, so that they are ready when they are required backstage. We will be asking for volunteers to help supervise in the dressing room - if we take turns, you will be able to enjoy the performance and remain in the audience for one show and be assured that your dancer is supervised and given assistance when making costume changes.

Picture Days are Monday, May 7 and Tuesday, May 8. Order forms are attached and will be posted online as well. We would ask that they be returned with payment prior to picture day (by the 4th please). This will ensure that all orders are correct and we can organize everything. It can be a little chaotic at the studio on this day and this will allow everything to run smoothly. The schedule is as follows:
